Douglas E. Comer, David L. Stevens

Internetworking With Tcp/Ip: Client-Server Programming and Applications : At & T Tli Version (TCP/IP Vol. III) Douglas E. Comer, David L. Stevens

Comprehensive coverage of building TCP/IP Applications for the popular Windows "TM" Sockets protocol.

-- Covers all server designs including multiservice, multiprotocol, and single-process concurrent servers.

-- Provides a conceptual basis for client and server design that points out the similarities and differences among various client and server designs, the role of concurrency, and when to use each design.

-- Features the most complete coverage of server technology, demonstrating how to apply advanced server technology to applications.

This volume answers the question "How does one use TCP/IP?" -- focusing on the client-server paradigm, and examining algorithms for both the client and server components of a distributed program.

It presents an implementation that illustrates each design and discusses techniques like application-level gateways and tunneling. The book also reviews several standard application protocols and uses them to illustrate the algorithms and implementation techniques.

From reader reviews:

Anderson Austin:

What do you concentrate on book? It is just for students because they are still students or this for all people in the world, the particular best subject for that? Simply you can be answered for that question above. Every person has distinct personality and hobby per other. Don't to be forced someone or something that they don't wish do that. You must know how great in addition to important the book Internetworking With Tcp/Ip: Client-Server Programming and Applications : At & T Tli Version (TCP/IP Vol. III). All type of book is it possible to see on many options. You can look for the internet options or other social media.

Stuart Perez:

The book with title Internetworking With Tcp/Ip: Client-Server Programming and Applications : At & T Tli Version (TCP/IP Vol. III) has lot of information that you can learn it. You can get a lot of advantage after read this book. That book exist new know-how the information that exist in this book represented the condition of the world today. That is important to yo7u to find out how the improvement of the world. This particular book will bring you inside new era of the glowbal growth. You can read the e-book in your smart phone, so you can read the idea anywhere you want.

Cora Blanchette:

A lot of people always spent their own free time to vacation or even go to the outside with them family or their friend. Were you aware? Many a lot of people spent that they free time just watching TV, or maybe playing video games all day long. If you want to try to find a new activity this is look different you can read a new book. It is really fun for you personally. If you enjoy the book that you simply read you can spent all day long to reading a guide. The book Internetworking With Tcp/Ip: Client-Server Programming and Applications : At & T Tli Version (TCP/IP Vol. III) it is rather good to read. There are a lot of individuals who recommended this book. They were enjoying reading this book. In the event you did not have enough space to bring this book you can buy the actual e-book. You can m0ore quickly to read this book from the smart phone. The price is not too expensive but this book possesses high quality.

Robert Knight:

What is your hobby? Have you heard in which question when you got scholars? We believe that that query was given by teacher with their students. Many kinds of hobby, All people has different hobby. And you know that little person like reading or as studying become their hobby. You have to know that reading is very important and book as to be the matter. Book is important thing to add you knowledge, except your personal teacher or lecturer. You find good news or update regarding something by book. Amount types of books that can you choose to use be your object. One of them is Internetworking With Tcp/Ip: Client-Server Programming and Applications : At & T Tli Version (TCP/IP Vol. III).
