**The God Particle** Rod Kierkegaard Jr.

*"A complex and action-packed techno-thriller, sharing blood with early Dean Koontz works and a twist of Michael Crichton's high technology."*

*"The God Particle is the twisting, turning tale of Ricardo Alomar's fight to make sense of his broken world. The premise is true high-concept sci-fi, with the company building a kind of time-displacement generator utilizing the Higgs boson -- the so-called "God Particle."*

----

## Overview:

Acclaimed comic writer and cartoonist behind *Rock Opera*, Rod Keirkegaard Jr builds on the success of *Obama Jones & The Logic Bomb* with his latest Science Fiction novel, *The God Particle*.

Driven not only the death of his friends but also the unexplained disappearance of their bodies from the morgue, Ricardo Alomar, in tandem with a foul-mouthed, sexually harassing female cop, discovers the secret of the *Higgs Boson* machine and the startling truth behind the disappearances. But the answer is utterly unlike anything he'd ever expected.----

*"I've been a fan of Rod Kierkegaard Jr. since the 1970s. Ever since first reading his comics it has been a passion of mine to seek out his work. His unique style of illustration and sense of humor have always captured my imagination, and so I was pleased when I learned he had written a novel. While the writing may sometimes be reminiscent of Philip K. Dick or Kurt Vonnegut, there's no question that the voice remains unmistakably and uniquely Kierkegaard's own." -T McNamara, Amazon review of Obama Jones & The Logic Bomb*

Fans of *The God Particle* should be sure to check out Rod Keirkegaard Jr.'s other work:

- For hilarious political commentary on the (hopefully not inevitable) extrapolation of political correctness into 2049 America, search for *Obama Jones & The Logic Bomb*
- For murder, money and family tensions with a gallows humour edge, search for *Family Cursemas*
- And for more excellent sci-fi from *Curiosity Quills Press*, look for *Shadow of a Dead Star* by Michael Shean
