Beyond Territorial Disputes in the South China Sea: Legal Frameworks for the Joint Development of Hydrocarbon Resources (NUS Centre for International Law series) Robert Beckman, Ian Townsend-Gault, Clive Schofield, Tara Davenport, Leonardo Bernard

This highly informative and up-to-date book brings together expert scholars in law of the sea to explore the legal and geopolitical aspects of the South China Sea disputes and provide an in-depth examination on the prospects of joint development in the South China Sea.

The South China Sea has long been regarded as a source of conflict and tension in Asia. Underlying this conflict is the dispute between China, Vietnam, the Philippines, Malaysia and Brunei over the features in the South China Sea, as well as the resources in the surrounding waters. One viable solution is for the claimants to set aside their claims and jointly develop the hydrocarbon resources in the South China Sea. Unlike previous works, this book takes a unique approach by examining existing joint development arrangements in Asia to see if there are any 'lessons learnt' that may be applicable to the South China Sea. This approach has enabled the editors to move beyond a mere theoretical discussion on joint development and focus on the law, policy and practical issues related to joint development.

Beyond Territorial Disputes in the South China Sea will strongly appeal to Government officials, policy-makers from ASEAN Countries, China and the United States, as well as academics, particularly those who are involved in legal scholarship on the South China Sea disputes. Practitioners of oil and gas law will also find much to benefit them in this book.

Contributors: V. Becker-Weinberg, R. Beckman, L. Bernard, P. Cameron, T. Davenport, R. James, S. Jayakumar, S. Kaye, G. MacLaren, B. Milligan, R. Nowinski, D.M. Ong, C. Schofield, I. Townsend-Gault
