If you have trouble laying your baby down to sleep at night or if you have trouble with your baby even sleeping through the entire night you are in luck. *Effective Ways to Help Your Baby Sleep* offers fifty excellent tips that will save your night. A parent of a baby can be so frustrated with their baby's sleep habits; they become weary from the lack of sleep. All babies go through times of restlessness and the key to success is in finding the best routine and sleep schedule so both you and your baby will get a good night's sleep every single night.

If you are at a loss as to what to do to help your baby get a good night's sleep you won't be after you read the *Effective Ways to Help Your Baby Sleep*. Each tip offers a help in getting your baby to sleep. Some of the tips cover bedtime routines and others make suggestions on things to do during the day that will help with the nighttime sleep schedules. You must rule out medical reasons first for the lack of going to sleep and staying asleep. Once you rule out medical conditions, you can then work on effective ways of lulling your baby to sleep and having them to sleep peacefully all night long.

You are encouraged to read through the fifty tips listed within *Effective Ways to Help Your Baby Sleep* and mark the ones that will work for you. Try just one or two of the tips at a time. Mark off the ones that are irrelevant (if your baby is a newborn that is breastfed, you won't want to feed them cereal) or if you already decided on co-sleeping or not co-sleeping. There are plenty of tips that will give you a jump-start at helping your baby to fall asleep and stay asleep all night with a little patience.
