## Christian Counseling Ethics: A Handbook for Therapists, Pastors & Counselors

A client raises spiritual questions. Can a Christian therapist working in a government agency talk with a client about faith? A young couple with two children asks a Christian counselor to help them negotiate an end to their marriage. What responsibility does the counselor have to try to repair the relationship? A youth group member confidentially reveals to the pastor that he is taking drugs. Should the pastor tell the boy's parents? A counselor who teaches a college course has a client show up for class. What should she do? These are just a few of the complex dilemmas that therapists, counselors and pastors face nearly every day. Handling these situations appropriately is critical for both the client's progress *and* the professional's personal credibility and protection from liability. State and federal codes, professional association statements and denominational guidelines have been drawn up to address ethical issues like competence, confidentiality, multiple relationships, public statements, third parties and documentation. In this book you'll find them all compiled and interpreted in light of Christian faith and practice. Written by qualified professional counselors and respected academic instructors, this book is an indispensable resource for understanding and applying ethics in Christian counseling today.
