Puntos gatillo y puntos acupunturales (Color) (Medicina nº 87) (Spanish Edition) Juan Gonzalo Miñano Vigo

Esta obra constituye una herramienta inestimable para los profesionales que buscan respuestas, tanto desde el ámbito de la Medicina Tradicional China, como desde la fisioterapia, osteopatía u otras disciplinas que utilicen técnicas manipulativas de tejidos blandos. Los terapeutas encontrarán en este manual una obra de consulta para la práctica diaria, ya que no se trata de una simple superposición de dos modelos que han demostrado su eficacia en la clínica, sino de una síntesis razonada en aquellos aspectos que ambos sistemas comparten y en los que se complementan mutuamente. Esta integración, así como la descripción exhaustiva de los PMG junto con los puntos acupunturales asociados, convierte este texto en un manual de gran utilidad clínica.
