Time and Eternity: Exploring God's Relationship to Time

William Lane Craig

Time and Eternity: Exploring God's Relationship to Time William Lane Craig

Time and Eternity deals with difficult issues in modern physics and brings them into relation with traditional theological doctrines. Craig has done a great work, and it is marvelous that now the philosophy of religion is engaging with the philosophy of science to the great benefit of both.

--John R. Lucas

Fellow of Merton College, Oxford University

Time and Eternity offers a comprehensive discussion of the problems in the concepts of time and eternity on the basis of an extraordinary familiarity with a vast number of recent contributions to this issue from scientists and philosophers. The argument is subtle and precise. Particularly important are the sections on the impact of the different versions of relativity theory on the concept of time.... The book offers a plausible argument for a realistic conception of temporal process and for God's involvement in the temporal distinctions and processes because of His presence in His creation.

--Wolfhart Pannenberg

Professor of Systematic Theology

Ludwig Maximillians Universitaet-Muenchen, Germany

As a scientist doing theoretical research in gravitational physics and quantum cosmology, I found Dr. Craig's thoughtful book highly interesting. He has carefully given arguments defending several different viewpoints for each of the many issues about time that he discusses, followed by critiques in which he emphasizes his own opinion. Reading *Time and Eternity* has forced me to develop better arguments for my own opinions (which differ considerably from Craig's).... I am certain that *Time and Eternity* will also stimulate your thinking about this fascinating subject and your appreciation for the God who created time as part of the marvelous universe He has given us.

--Don N. Page

Professor of Physics and Fellow of the Cosmology and Gravitation Program of the Canadian Institute for Advanced Research

University of Alberta, Edmonton, Alberta, Canada

William Lane Craig is one the leading philosophers of religion and one of the leading philosophers of time. In this book, he combines his expertise in these areas to produce an original, erudite, and accessible theory of time and God that will be of great interest to both the general public and scholars. It is a rewarding experience to read through this brilliant and well-researched book by one of the most learned and creative thinkers of our era.

--Quentin Smith

Professor of Philosophy, Western Michigan University

In *Time and Eternity*, William Lane Craig defends the remarkable conclusion that "God is timeless without creation and temporal since creation." Craig argues his case philosophically by carefully weighing evidence for and against divine temporality and personhood in light of dynamic versus static theories of time and their warrants, in turn, in a Lorentzian interpretation of special relativity and an objective, mind-independent theory of becoming, including fascinating excursions into Big Bang cosmology and the philosophy of mathematics. As the latest in his series of ground-breaking books, *Time and Eternity* summarizes and extends Craig's previous technical arguments and conveys them to a more general audience. It is a must-read

for anyone seriously interested in the problem of time and eternity in Christian philosophy.

--Robert Russell

Professor of Theology and Science

Graduate Theological Union, Berkeley, Calif.

The nature of time is a continuing source of puzzlement both to science and in everyday life. It is also an important issue in theological understandings of the nature of God. In this interesting book, Professor Craig tackles this complex set of topics in a clear way. His discussion of the interrelated scientific, philosophical, and theological issues clears up many previous misconceptions and proposes a plausible understanding of the relation of God to time and eternity that many will find helpful.

--George Ellis

Professor of Mathematics and Applied Mathematics

University of Capetown

From reader reviews:

Delia Black:

Do you have favorite book? Should you have, what is your favorite's book? Book is very important thing for us to learn everything in the world. Each guide has different aim or goal; it means that reserve has different type. Some people experience enjoy to spend their time to read a book. They can be reading whatever they take because their hobby is reading a book. How about the person who don't like studying a book? Sometime, particular person feel need book once they found difficult problem or perhaps exercise. Well, probably you will want this Time and Eternity: Exploring God's Relationship to Time.

James Shafer:

Do you have something that you enjoy such as book? The guide lovers usually prefer to choose book like comic, short story and the biggest an example may be novel. Now, why not attempting Time and Eternity: Exploring God's Relationship to Time that give your satisfaction preference will be satisfied by reading this book. Reading routine all over the world can be said as the way for people to know world much better then how they react toward the world. It can't be said constantly that reading habit only for the geeky person but for all of you who wants to possibly be success person. So , for every you who want to start reading through as your good habit, you could pick Time and Eternity: Exploring God's Relationship to Time become your starter.

Shannon Silva:

It is possible to spend your free time to read this book this e-book. This Time and Eternity: Exploring God's Relationship to Time is simple to develop you can read it in the park, in the beach, train and also soon. If you did not have got much space to bring the actual printed book, you can buy typically the e-book. It is make you simpler to read it. You can save the particular book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

Kenneth Lambert:

Some people said that they feel fed up when they reading a publication. They are directly felt the item when they get a half elements of the book. You can choose the particular book Time and Eternity: Exploring God's Relationship to Time to make your own personal reading is interesting. Your own personal skill of reading proficiency is developing when you including reading. Try to choose easy book to make you enjoy to see it and mingle the idea about book and reading through especially. It is to be initially opinion for you to like to open a book and examine it. Beside that the book Time and Eternity: Exploring God's Relationship to Time can to be your friend when you're really feel alone and confuse with the information must you're doing of the time.
