Do you fall in love hard, but fear intimacy? Are you sick of being told that you are “too sensitive”? Do you struggle to respect a less-sensitive partner? Or have you given up on love, afraid of being too sensitive or shy to endure its wounds?

Statistics show that 50 percent of what determines divorce is genetic temperament. And, if you are one of the 20 percent of people who are born highly sensitive, the risk of an unhappy relationship is especially high. Your finely tuned nervous system, which picks up on subtleties and reflects deeply, would be a romantic asset if both you and your partner understood you better. From low-stress fighting to sensitive sexuality, the book offers a wealth of practical advice on making the most of all personality combinations. Complete with illuminating self-tests and the results of the first survey ever done on sex and temperament, **The Highly Sensitive Person in Love** will help you discover a better way of living and loving.
