A Companion To Marx's Capital, Volume 2

David Harvey

A Companion To Marx's Capital, Volume 2 David Harvey

The biggest financial crisis since the Great Depression shows no sign of coming to a close and Marx's work remains key in understanding the cycles that lead to recession. For nearly forty years, David Harvey has written and lectured on *Capital*, becoming one of the world's most foremost Marx scholars.

Based on his recent lectures, and following the success of his companion to the first volume of *Capital*, Harvey turns his attention to Volume 2, aiming to bring his depth of learning to a broader audience, guiding first-time readers through a fascinating and hitherto neglected text. Whereas Volume 1 focuses on production, Volume 2 looks at how the circuits of capital, the buying and selling of goods, realize value.

This is a must-read for everyone concerned to acquire a fuller understanding of Marx's political economy.
