Preschool-Wide Evaluation Tool(TM) (PreSET(TM)) Manual, Research Edition: Assessing Universal Program-Wide Positive Behavior Support in Early Childhood Elizabeth A. Steed Ph.D., Tina Pomerleau M.Ed.

View our recorded webinar: *Using the PreSET™ to Measure, Monitor, and Achieve Positive Behavioral Interventions and Supports in Early Childhood Settings* presented by Elizabeth Steed and Tina Pomerleau.

How well is your early childhood program implementing positive behavior intervention and supports (PBIS)? Now there's a comprehensive tool that helps programs find out how well their interventions are working—and what areas they need to work on to improve children's social-emotional skills and behavior.

Based on the widely used and highly regarded School-wide Evaluation Tool (SET), PreSET™ *assesses program-wide* PBIS in all types of early childhood settings. Conducted twice a year by an unbiased outside observer—such as a behavior consultant, inclusion coordinator, or school psychologist—PreSET™ takes an accurate snapshot of a program's PBIS through a review of **program documents, classroom observations and interviews** with the administrator, teachers, and three children from each classroom.

PreSET™ will help programs

- **Take first steps toward improving kindergarten readiness.** Only 40% of preschool children have the social-emotional skills they need for kindergarten. With the results of PreSET™, programs will know what they need to work on to better support these critical skills.
- **Assess universal features of effective PBIS.** PreSET™ assesses classroom and program-wide PBIS variables across 8 key categories, including behavioral expectations, family involvement and program support.
- **Measure progress toward goals.** PreSET™ generates a simple percentage of how well a program is implementing PBIS, so programs can see at a glance how they're progressing.
- **Report better outcomes to OSEP.** PreSET™ helps programs determine how well they're addressing social-emotional skills and behavior, so they can work on trouble spots and report improved outcomes to OSEP.
- **Target quality improvement efforts.** With the included Action Plan form, programs can easily develop a plan to strengthen behavior interventions.
- **Determine professional development needs.** What do teachers need to learn to better support children's social-emotional development? PreSET™ results highlight which areas should be targeted for future professional development.

The complete PreSET™ consists of this Manual and a CD-ROM. The **Manual** gives users thorough guidance on conducting and scoring PreSET™, a technical appendix of PreSET™ research, and a case study that walks the reader through an entire evaluation. The **CD-ROM** includes all the printable forms: the four PreSET™ forms (Administrator Interview Guide, Classroom Interview and Observation, Classroom Summary, and Scoring Guide), plus two forms for planning next steps (an Action Plan and Sample Feedback Form).

With this comprehensive tool, early childhood programs will have the data they need to determine whether PBIS is working, target interventions and program improvements, and work toward better social-emotional development for all young children. Learn more about the entire *PreSET*TM system.

See which domain of school readiness in the Head Start Child Development and Early Learning Framework this tool addresses.

So , for every you who want to start reading through as your good habit, you are able to pick Preschool-Wide Evaluation Tool(TM) (PreSET(TM)) Manual, Research Edition: Assessing Universal Program-Wide Positive Behavior Support in Early Childhood become your own personal starter.

Darlene Beaudoin:

As a college student exactly feel bored to help reading. If their teacher requested them to go to the library or even make summary for some book, they are complained. Just very little students that has reading's heart and soul or real their passion. They just do what the teacher want, like asked to the library. They go to there but nothing reading critically. Any students feel that looking at is not important, boring as well as can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for you. As we know that on

this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Preschool-Wide Evaluation Tool(TM) (PreSET(TM)) Manual, Research Edition: Assessing Universal Program-Wide Positive Behavior Support in Early Childhood can make you experience more interested to read.
