Vol. 2 from a set of 2 volumes. This book is available in paperback at [lulu.com](http://lulu.com)

See description of the book as posted on [amazon.com](http://amazon.com) for volume one of the series.

The objectives of this book is to shed light on the information obtained from extraterrestrials, intraterrestrials and aliens, and how to benefit from such extraordinary discoveries, information and revelations...and not to fuel controversy and create gossip about this of that official, and what he/she has done and/or what he/she is hiding from the general public.

Dr. Teller asked the alien about the propulsion system of those alien crafts, and how they operate underwater. The alien replied (As she did many times before) that he will not be able to understand, mainly because our science books and scientific research do not have the aliens' technological/scientific terms, and corresponding information, explanation and description.

Secondly, because the propulsion technology used by the aliens contradict our laws of physics.

Dr. Teller was persistent and replied, "Let me be the judge of that..."

Another scientist asked whether there is any sort of combustion, an anti-gravity propeller, electro-magnetic channel or current, an aquatic source of energy, etc. And the alien replied NO!

The alien added that once the spacecraft enters the water, it takes on different scientific properties; the craft does not plunge in the water as we have assumed. It does not dive.

In fact, it never touches the surface of the water.

In some incomprehensible manner, the craft creates some sort of vacuum tunnel before it penetrates the water.

Inquiring about the "Vacuum Tunnel", a scientist asked whether the tunnel can be measured, whether the tunnel is made from materials found on Earth, or whether the tunnel is created by the spacecraft itself, and could this tunnel be detected by us.

The alien answered that the tunnel could NOT be detected by us, nor measured, because it is movable, temporarily used, it is not physical, and could not be detected by any sonar system.

Dr. Teller asked the alien about the "invisible" structure of the aliens' tunnel and what it consists of. The alien said, it is "Mitra" (Cold Plasma.)

A Colonel asked the alien if any of their spacecrafts has entered our oceans. The alien answered no.

The Colonel seemed to be confused.

Perhaps, he did not believe the alien, because he commented on the alien's answer by saying, "We have seen

them...."

Aliens: Not ours.

Question: Not yours? Meaning what?

Alien: We have no need to enter your oceans.

Question: Apparently some did.

We saw something diving into the ocean. They were not ours.

How do you explain this? What do you have to say about this?

Alien: They belong to another race.

Question: Wow!! Who? What race?

Another alien race? How many are they?

From outer space?

Alien: Not from outer space.

Question: Where from then? The moon? Mars?

Alien: For your planet.

Question: Oh no!!! Not from here, I bet on it.

Answer: Your knowledge is very limited.

Question: Then tell me about it.

Alien: They are from your planet. They belong to a galactic race living on your planet. They are not from our world.

Note: This wasn't...much...of...help...replied the Lt. Colonel.

(Unreadable words.)

\*\*\* \*\*

Throughout the entire meeting, the alien was not communicating verbally; no sound was heard from her.

Her communication was directly transmitted from her brain (cellular motor) to the device she gave us.

The device will receive her thoughts and answers in colors, images and frequencies, like we use to send messages through the Morse code. At the far end of the machine, there is a screen which displays dots, multiple dots, empty spaces, and slashes and deciphers the letters or forms.

Secondly, after this was displayed on the screen, the machine would talk to us, in English, in a very and most unusual English vocabulary.
