INDEX Architecture: A Columbia Architecture Book (D, Columbia Documents of Architecture and Theory, V. 7-9)

INDEX Architecture documents the extensive cross-fertilization of ideas that can occur between architectural practice and education. Through work developed by students and faculty at Columbia University's School of Architecture, it offers not only an archive of avant-garde work but a record of architectural discourse at a time when the design studio has been radically altered by digital technology. Writings, interviews, and images are organized according to an alphabetical "index" of key terms. Cross-referencing allows for a rich reading of concepts currently discussed in the field. The contributing critics and theorists include Stan Allen, Karen Bausman, Lise Anne Couture, Kathryn Dean, Evan Douglas, Kenneth Frampton, Leslie Gill, Thomas Hanrahan, Laurie Hawkinson, Steven Holl, Jeffrey Kipnis, Sulan Kolatan, Greg Lynn, William MacDonald, Reinhold Martin, Mary Mcleod, Victoria Meyers, Hani Rashid, Jesse Reiser, Bernard Tschumi, Nanako Umemoto, and Mark Wigley.
