Master of the World

Jules Verne

Master of the World Jules Verne

Master of the World (French: *Maître du monde*), published in 1904, is one of the last novels by French pioneer science fiction writer, Jules Verne. It is a sequel to *Robur the Conqueror*. At the time Verne wrote the novel, his health was failing. *Master of the World* is a "black novel," filled with foreboding and fear of the rise of tyrants such as the novel's villain, Robur, and totalitarianism. Set in the summer of 1903, a series of unexplained events occur across the eastern United States, caused by objects moving with such great speed that they are nearly invisible. The first-person narrator John Strock, 'Head inspector in the federal police department' in Washington, DC, travels to the Blue Ridge Mountains of North Carolina to investigate.
