Peter Benchley's Creature Peter Benchley

At a small marine institute off the coast of Connecticut, only marine biologist Simon Chase realizes that a sixteen-foot pregnant Great White is feeding in the area. But even Simon doesn't know that a far deadlier creature is about to come out of the deep and threaten everything he cares for. A creature whose malevolence is unthinkable. Whose need to feed is insatiable. And whose relentless hunt for prey is unstoppable.

Nearly twenty-five years after his huge bestseller *Jaws*, the master of the deep has done it again, letting loose a chilling new predator that only he could create. Drawing on his singular knowledge of the sea, science, and history, Peter Benchley masterfully spins a suspense-filled novel that hits you on a primal level, makes your heart pound, and leaves your blood running cold.
