Now in its Sixth Edition, The Human Record continues to be the leading primary source reader for the World History course. Each volume contains a blend of visual and textual sources; these sources are often paired or grouped together for comparison. A prologue entitled, "Primary Sources and How to Read Them," appears in each volume and serves as a valuable pedagogical tool. Unlike many world history texts that center on the West, The Human Record provides balanced coverage of the global past. Approximately one-third of the sources in the Sixth Edition are new, and these documents continue to reflect the myriad experiences of the peoples of the world.
